IOSH APPROVED OPEN TRAINING MADE EASY

Risk Control have been an approved provider of the Managing Safely® programme for many years and we are offering this as a virtual course running over three and a half days, to enable candidates to join the learning from home or the workplace whilst keeping on top of the day job.

These will be "Open Courses" allowing delegates from a number of organisations to join, so if you don't have sufficient numbers of candidates to make an "In-House course" viable, the people that need it don't have to wait to access this important learning.

Providing the course virtually enables us to deliver the materials in more digestible chunks and creates a safe environment where delegates can ask questions in confidence and without risk of embarrassment. This is an ideal course for new or recently promoted staff to get up to speed with their peers and you won't even need to organise a training venue, just ensure the candidate has access to an internet enabled PC with a camera and microphone, provide us with their email address and we will take care of all the admin.

OBJECTIVES

Managing Safely® is designed to provide all managers with the confidence and enthusiasm to apply knowledge to the workplace to improve the health and safety standards. The content is divided into the following seven modules and is formally assessed by an end assessment and the production of a work based risk assessment project.

Introduction

Assessing risks

Controlling risks

Understanding responsibilities

Understanding hazards

Investigating incidents

Measuring performance

WHO SHOULD ATTEND

Line Managers and anyone with a responsibility for the Health and Safety of others.

DURATION

3.5 days

LOCATION

Your Desk (Via Teams)

TESTIMONIALS

"The tutor was great and clearly passionate about health and safety. He explained this clearly and was very engaging".

"I think the online learning worked really well. Easy way of doing things and it kept me engaged."

"The tutor was extremely helpful from start to finish. He takes his time going through each module and is non-judgemental for any questions asked. He could not have been any more helpful. A great trainer."

IOSH APPROVED OPEN TRAINING MADE EASY

The Managing Safety Refresher is an opportunity to refresh the key parts of Managing Safety® through an engaging and practical one day course. Available for delegates who have qualified from the IOSH Managing Safety course within the last three years.

OBJECTIVES

This course will provide delegates with a refreshed & extended understanding of what managers, supervisors and Team Leaders etc. need to do to discharge their health and safety responsibilities for others in the workplace and will include:

- Reflecting on the reasons for Managing Safety and the key health and safety terminology
- Leadership, its essential principles and how to develop an effective safety culture
- The phases of an effective safety and health management system including:

- **PLANNING** – Policy objectives, legal standards where to find help & guidance
- **DO** – implement risk management processes to control the risks
- **CHECK** – to measure performance against your indicators
- **ACT** - to achieve continual improvement

WHO SHOULD ATTEND

This course is available for delegates with a valid IOSH Managing Safety qualification (less than three years old).

IOSH SAFETY FOR EXECUTIVES AND DIRECTORS (SFED) VIRTUAL COURSE

VIRTUALLY DELIVERED IOSH APPROVED TRAINING WORKSHOPS

Our Safety for Executives and Directors training workshop has been approved by the Institution of Occupational Safety and Health (IOSH), the world's largest and only chartered professional body for health and safety professionals. It has been developed to provide strategic level awareness of safety, health and risk management strategy, and in many organisations it has become the benchmark qualification for delivering essential health & safety knowledge to the leadership group. This course will be run on an "open course" basis and is ideal for new or recently promoted senior managers & directors etc.

OBJECTIVES

This course is designed to provide a fundamental understanding of the moral, legal and business case for proactive safety, health and risk management and its integration into holistic business management systems and procedures. This would include:

- Health and Safety responsibilities, accountabilities and liabilities of executives, directors and senior managers
- Benefits of good practice and consequences of failure
- Importance of health and safety integration
- Management systems and competence development
- Leading on performance and culture
- Importance of monitoring, review and reporting on performance

WHO SHOULD ATTEND

Senior leadership team

IOSH MANAGING OCCUPATIONAL HEALTH AND WELLBEING® VIRTUAL COURSES

IOSH APPROVED OPEN TRAINING MADE EASY

Ill health and poor mental health are the two biggest reasons for absence in UK workplaces and whether these issues have been caused in the workplace or elsewhere they threaten to seriously undermine your organisations ability to prosper. Unfortunately the majority of people managers do not feel well equipped to intervene and offer support to those affected.

Gallagher Bassett are pleased to announce that from January 2023 we are offering a 1 day IOSH accredited training course to help plug this gap and give your people managers greater understanding and confidence to deal with vital aspect of their role.

OBJECTIVES

The course is aimed at anyone who is directly responsible for managing or leading others and is a valuable extension to more traditional health and safety courses such as IOSH Managing Safely.

The course covers:

- A healthy company and why it makes good business sense to manage workplace health and wellbeing.
- Health risk management and the process for conducting a health risk assessment.
- Fitness for work and the importance of managing the fluctuations in people's health status.
- How the promotion of a wellbeing programme can influence and add value to an organisation.

A 1 day awareness course will not make your people managers' health & wellbeing experts but they will go away with tools, techniques and practical advice to apply and make a positive difference in the workplace.

As an accredited course delegates will receive an IOSH certificate on successful completion of the end of course assessment test and practical health risk assessment project.
